

## **Cape Light Compact**

### **2008 Calendar Year Program Commitments**

#### **Energy Efficiency Programs**

##### **NOTICE**

Due to high demand for energy efficiency program services, as of July 1, 2008, all energy efficiency program funds, including commercial & industrial programs and residential programs, are committed to serve existing projects and customer installations scheduled through the end of the calendar year 2008.

Energy audits and requests for energy efficiency program installations are encouraged and will be placed in queue to be served as soon as funds become available in calendar year 2009 or as other funds become available sooner. Compact staff continue to offer technical support, energy efficiency education, outreach, and assistance to customers during these challenging times of high energy costs. Please call 1-800-797-6699 for further information.
