

2016 Mass Save® Heating & Cooling – Electric CENTRAL AC/HEAT PUMP REBATE APPLICATION

Offer valid on equipment purchased and installed between
January 1, 2016—December 31, 2016 (subject to funding availability).
All submissions must be postmarked by January 31, 2017.

NOTE: Cannot be combined with other Mass Save Heating & Cooling rebates for the same equipment.

TO RECEIVE YOUR REBATE CHECK BY MAIL, FOLLOW THESE STEPS

- 1) Work with a licensed contractor to install a qualifying product at a property with an active residential electric account with Cape Light Compact, Eversource, National Grid or Unitil.
- 2) Obtain your contractor's invoice with equipment make, coil and condenser model numbers, size in tons, date and location of installation and total installation cost (*all items required*).
- 3) Mail the following **required documents** to the address on the right:
 - This completed and signed application.
 - Contractor's invoice showing required information and proof of purchase.
 - Copy of "ACCA approved version 8 Manual J" Load (Sizing) Calculation
 - Copy of the AHRI Certificate. Visit www.ahridirectory.org or contact your heating and air conditioning contractor to obtain a copy.
 - Copy of your most recent electric utility bill.

(!) IMPORTANT: Sign and photocopy your entire submission for your records.

Send completed application with all corresponding documentation to:

2016 Mass Save® Heating & Cooling – Electric CENTRAL AC/HEAT PUMP REBATE APPLICATION

Terms and Conditions

EQUIPMENT REQUIREMENTS

All rebated central air conditioning (AC) units/systems or heat pumps must be qualified, listed with and certified by the Air Conditioning, Heating, and Refrigeration Institute (AHRI), and meet the program SEER, EER and HSPF requirements (where applicable). The condenser and the evaporator coil must be new and replaced together. The condenser and coil are separate components in a split AC or heat pump system, but for rebate purposes, are considered one unit. All units must have a TXV or EXV to qualify for rebate.

SEER, EER (where applicable) and HSPF ratings (for heat pumps only) for condenser, evaporator and air handler (if applicable) must be provided. Both the Consortium for Energy Efficiency (cee.hvacdirectory.org) and the AHRI directory (ahridirectory.org or call 703-600-0384) web sites list SEER and EER values. AHRI also provides AHRI numbers. ¹SEER—Seasonal Energy Efficiency Ratio. ²EER—Energy Efficiency Ratio is a measure of instantaneous cooling efficiency. ³HSPF—Heating Seasonal Performance Factor. AHRI SEER and EER rating of outdoor condenser and indoor coil working together. Rounding up of SEER, EER or HSPF ratings are not acceptable.

Load calculation requires proper design temperatures for area, and unit installed must be within ½ ton of calculation. Load calculation is a code requirement in MA. Contractors must use ACCA Manual J v8.

Rebate amount not to exceed the installed cost of equipment.

Early Replacement: To qualify for an early replacement rebate, Central Air Conditioning (AC) or Central Heat Pumps (HP) units/systems must be verified as 12 years or older and functioning. Age and functionality can either be confirmed by a Mass Save Energy Home Energy Service Program site visit, or by having a Mass Save Heating & Cooling AC Check trained contractor verify.

GENERAL REQUIREMENTS

Application Form: This application must be filled out completely, truthfully, and accurately. The customer or contractor must date and submit the completed application along with all required documentation for specific rebates and/or incentives. By submitting the rebate application, the customer and contractor agree to abide by these Terms and Conditions.

Time Limit: Qualifying units for equipment rebate must be purchased and installed between January 1, 2016 and December 31, 2016. Applications must be postmarked by January 31, 2017. Program is subject to change without prior notice, including rebates and incentive levels.

Payments: From the time the application is processed and approved, please allow 6–8 weeks for payment. Payment processing will take longer if information or documentation are missing from the application.

Geographic Requirements: Offers valid only for residential electric customers in MA where the Mass Save Heating and Cooling Program is offered by Cape Light Compact, Eversource, National Grid, and Until.

Rebate Limitations: This rebate may not be combined with any other utility or energy efficiency service provider offer for the same equipment and may be subject to change without notice.

Proof of Purchase: A copy of the customer's invoice itemizing the purchased equipment must accompany each rebate application form. The invoice must indicate the equipment type, size, make, model, name of purchaser, installation date and location, date of purchase and total installed cost.

Owner's Certification: Owner certifies that he/she has purchased and installed the equipment listed on this application at the defined location. Owner agrees that all information is true and that he/she has conformed to all offer and equipment requirements listed. Owner has verified that the units(s) listed on this application have been installed or serviced correctly. There are no unusual noises or vibrations and all controls have been calibrated. Owner or owner's representative has been instructed on how to operate and maintain this equipment and has received all necessary operation and maintenance manuals provided by the manufacturer with the new unit(s).

Contractor Certification: Contractor certifies that installation and services performed have been in accordance with all applicable municipal, state and federal codes, standards and regulations, as well as program requirements pertaining to the installed system.

Approval and Verification: The participating utility or energy efficiency service provider reserves the right to conduct field inspections to verify installations; this right to access extends up to one year after date of application, even if rebates or incentives have been paid.

Tax Liability: Sponsors will not be responsible for any tax liability that may be imposed on the customer or contractor as a result of the payment of rebates.

Endorsement: Sponsors do not endorse any particular manufacturer, product, system design, or technology in promoting these offers.

Limitation of Liability: Sponsors and their rebate administrator's liability is limited to paying the rebate and incentive specified. Sponsors and their rebate administrator are not liable for any consequential or incidental damages or for any damages in tort connected with or resulting from participation in these offers.

Warranties: SPONSORS DO NOT WARRANT THE PERFORMANCE OF INSTALLED OR SERVICED EQUIPMENT, EXPRESSLY OR IMPLICITLY. Program sponsors make no warranties or representations of any kind, whether statutory, expressed, or implied, including, without limitations, warranties or merchantability or fitness for a particular purpose regarding the equipment or services provided by a manufacturer or vendor. Contact your contractor for details regarding equipment performance and warranties.

Ask your Contractor for an AC Check.

Have your Central AC or Heat Pump equipment installed and properly tested by
a MASS SAVE HEATING & COOLING AC Check Trained Contractor.

energy for life

Other than the energy savings realized by Customer, Customer agrees that Program Administrator has the unilateral right to apply for any credits or payments resulting from the Program or equipment. Such credits and payments include but are not limited to: (a) ISO-NE capacity payments, (b) other electric or natural gas capacity and avoided cost payments or credits, (c) environmental credits, and (d) payments from demand response programs. Customer further agrees Customer will not file for such payments or credits either directly or indirectly, and will not consent to any other third party's right to such payments or credits. This right is irrevocable for the life of the equipment unless the Program Administrator provides written consent.
