

2018

OIL & PROPANE HEATING & WATER HEATING

REBATE FORM

Rebates of up to \$2,500 are available for high-efficiency furnaces, boilers, water heaters, weather responsive controls and thermostats.

SAVE UP TO \$2,500 WITH OIL OR PROPANE HEATING REBATES.

Heating your home can be one of your largest energy costs. Replacing outdated equipment with a new high-efficiency heating and water heating systems will keep your home comfortable and your energy bills low. And, you can save even more with rebates on equipment from Mass Save®.

Heating Equipment			
Fuel Type	Equipment	REBATE AMOUNT	Minimum AFUE*
Oil	Furnace with ECM+ blower	\$350	86% or higher
Oil	Hot water boiler	\$500	86% or higher
Propane	Furnace with ECM+ blower	\$750	95% or higher
Propane	Hot water boiler	\$1,500 / \$2,500	90% or higher / 95% or higher
Propane	Condensing boiler with on-demand water heater	\$1,200	90% or higher
Propane	Condensing boiler with on-demand hot water	\$2,000	95% or higher

*AFUE = Annual Fuel Utilization Efficiency *ECM = Electronically Commutated Motor

Water Heating Equipment and Controls			
Fuel Type	Equipment	REBATE AMOUNT	Efficiency Requirement
Oil or Propane	Indirect water heater	\$500	Must be attached to an oil- or propane-fired heating system. Must replace a freestanding or tankless water heater. Solar storage tanks are not eligible.
Propane	ENERGY STAR® certified propane on-demand tankless water heater	\$600	0.87 UEF* or higher with electronic ignition
Oil or Propane	Weather-responsive outdoor boiler reset control	\$100	Limit one control per heating system. Must be an after-market, add-on unit attached to an oil- or propane-forced hot water boiler.
Oil or Propane	Programmable thermostat	\$25	New only. Rebate not to exceed purchase price. Limit three per account.
Oil or Propane	Wireless thermostat	\$100	New only. Wireless connections must be enabled. Rebate not to exceed purchase price. Limit three per account. For the \$125 rebate, visit MassSave.com/Thermostats for qualifying thermostat details.
	Wireless thermostat (select manufacturers)	\$125	
Customers with central A/C must provide serial number and MAC address to be eligible for additional offerings. Serial No.: _____ MAC Address: _____			

*UEF = Uniform Energy Factor

Eligibility

Eligible equipment must be installed in a one- to four-family home with Massachusetts residential electric service from National Grid, Eversource, Unitil or Cape Light Compact. Rebate is valid only for equipment installation made by licensed contractors. Only original applications will be accepted. Work is subject to post-installation verification. Additional restrictions may apply, and the program is subject to change without notice.

For more information, call **800-232-0672**.

2018 OIL/PROPANE HEATING & WATER HEATING REBATE FORM

INSTRUCTIONS

- Contact multiple licensed contractors to get quote(s) for eligible equipment that meets or exceeds minimum efficiency requirements.
- Interested in 0% financing? Apply for a Mass Save® HEAT Loan prior to installing your equipment. Learn more at MassSave.com/HEATLoan.
- Schedule and complete the installation of eligible equipment between January 1, 2018 and December 31, 2018.
- Save time and apply for a rebate online at MassSave.com/Rebates. Or, complete and mail in this rebate form and required documentation to: **Mass Save Oil and Propane Rebate, P.O. Box 2528, Manchester, CT 06045**
- Scan or mail in the following required documents:
 - A completed rebate form signed by the customer/owner AND the contractor
 - A dated contractor invoice or receipt noting completion of installation, the equipment manufacturer and the model number

Note: The completed rebate application must be submitted by January 31, 2019. Incomplete information will delay application processing. Please allow 6 to 8 weeks for payment after receipt and verification of all paperwork and/or site inspections.

ENERGY STAR® certified propane on-demand tankless water heater	Propane	0.87	\$600					

New indirect water heater is connected to: New heating system, AFUE rating: _____
 Existing heating system, estimated age: _____

TERMS AND CONDITIONS

Rebates: Subject to these Terms and Conditions, Cape Light Compact, Eversource Energy, National Grid and Unitil, herein known as the "Program Administrators (PAs)," through their contractual Vendor, herein known as the "Rebate Administrator," will pay rebates to eligible Program Administrator customers or designated payees of customers for the installation of qualified efficient heating and water heating equipment and controls within the respective Program Administrator's service territory.

Customer Eligibility: You must be a Massachusetts residential electric customer of a participating PA installing equipment between January 1, 2018 and December 31, 2018. Equipment must have been installed in a one-to four-family home with an active residential Program Administrator electric account. Rebate Administrator must receive completed application and required documents listed within 30 calendar days of installation. Equipment must be installed by a licensed contractor at the customer's address listed on the rebate application. Customer certifies that the described high-efficiency heating equipment, water heating equipment and/or controls have been installed in accordance with all program guidelines and applicable codes.

Rebate Limitations: Participants who receive equipment incentives through another energy efficiency program offered by the participating utilities are not eligible to receive incentives directly through this Program for the same equipment. This does not apply to the HEAT Loan financing program.

Rebate Application: Rebate total shall not exceed installed costs quoted on supplied contractor receipt/invoice/work order. If customer receives financing through a HEAT Loan Program Participating Lender, the applicable rebate amount will be deducted from the loan amount and the customer will be responsible to pay the rebate amount upfront. The customer will be reimbursed the rebate amount once the rebate application has been validated and processed. Program deadlines still apply to customers financing through a HEAT Loan. The Customer is responsible for completing all required information on the Rebate application. Rebate applications will not be processed if they are not properly filled out.

Post-Installation Verification: Prior to rebate payment, the Program Administrators reserve the right to conduct an onsite verification through a Mass Save® Lead Vendor to ensure that the equipment was installed according to the guidelines of the program. It does not include any kind of safety review and should not be relied upon as one. If the Mass Save Lead Vendor determines that the equipment installed does not meet the program specifications as described in the application, the Program Administrators reserve the right to refuse payment of the rebate.

No Warranties: The Program Administrators and Rebate Administrator do not make any representation of any kind regarding the results to be achieved by the equipment or the adequacy of such equipment. The Program Administrators and the Rebate Administrator expressly disclaim any and all warranties or representations of any kind, whether oral, statutory, expressed or implied, including, without limitation, warranties of merchantability, usage, suitability or fitness for a particular purpose. Contact your contractor for details regarding equipment performance and manufacturer warranties. The Program Administrators and the Rebate Administrator do not endorse, guarantee or warrant any particular contractor, manufacturer or installation.

Changes in the Rebate Offer: These Terms and Conditions may be changed or the offer may be terminated by the Program Administrators at any time without notice.

Contractor Insurance: The Program Administrators and the Rebate Administrator are not responsible for any damage that may be caused by or arise out of an installation of any equipment. The Customer must select a Contractor who carries appropriate insurance coverage and licenses.

Liability: The Program Administrators and the Rebate Administrator are not liable for any Customer damages that may occur as a result of the termination of this program beyond the amount of the rebate.

No Tax Liability: The Program Administrators and the Rebate Administrator are not responsible for any tax liability that may be imposed as a result of receipt of the rebates.
