

CAPE LIGHT COMPACT JPE Request for Proposals
For
All-Requirements Retail Electric Power Supply for Municipal and
Government Accounts

1. Introduction

Originally formed in 1997 by the twenty-one Cape Cod and Martha's Vineyard towns and Barnstable and Dukes Counties, the Cape Light Compact JPE (the "Compact") reorganized as a joint powers entity in 2017 through a joint powers agreement of the twenty-one Cape Cod and Martha's Vineyard towns and Dukes County in the Commonwealth of Massachusetts (the "Member Municipalities") with the objectives, among other things, of securing competitive power supply, encouraging renewable energy development, administering energy efficiency programs, and providing for consumer advocacy. For further information on the Compact and its programs, go to <http://www.capelightcompact.org>.

In issuing this Request for Proposals ("RFP"), the Compact is acting as agent for the Member Municipalities and for other government electric account holders located within the Member Municipalities (collectively, the "Participants"). There are approximately 1400 municipal electric accounts for the Participants located on Cape Cod and Martha's Vineyard, which represents approximately 75,000 MWh of annual retail sales. The Compact seeks proposals to serve this electric load with all-requirements retail electric power supply. As part of the proposals submitted, the Compact also seeks options for supporting renewable energy beyond state-mandated requirements by meeting an additional percentage of the load served with RPS Class I Renewable Generation Attributes, as such term is defined in 225 C.M.R. §14.02 ("MA Class 1 RECs)." All-requirements retail power supply for all Participant accounts will commence with the July 2019 meter read dates. Bidders are invited to propose contract delivery periods of a minimum of one (1) year to a maximum of three (3) years, with one or more options for additional MA Class 1 REC content. As described below, price offers must be fixed annually for each contract year; seasonal, time-of-day, variable, or indexed pricing will not be permitted. Bidders may propose an adder to the fixed price for each 1% of Participants' retail sales met with additional MA Class 1 RECs.

The selected bidder must execute a Municipal Competitive Electric Supply Agreement ("MCESA"), as supplied or amended, for the provision of all-requirements retail power supply, the form of which is available for bidder review as set forth below.

3. Services Requested

3.1. All-Requirements Retail Electric Power Supply

The Compact is requesting proposals for delivery of all-requirements retail electric power supply. All-requirements retail electric power supply generally includes, but may not be limited to, electrical energy; capacity; ancillary services; renewable energy resources as mandated by: (i) G.L. c. 25A, §§11F, 11F 1/2 and any regulations, orders or policies adopted pursuant thereto; and (ii) the Clean Energy Standard requirements set forth in 310 C.M.R. §7.75 and any orders or policies adopted pursuant thereto; and transmission and distribution losses. The specific definition of all-requirements retail electric power supply and associated responsibilities are stated in the MCESA, which will be provided to bidders upon receipt of a signed Confidentiality Agreement (see Section 2.3).

A supplier of all-requirements retail electric power supply will be responsible for all load and supply scheduling, scheduling of network and other transmission service, and all other transactions and communications with ISO New England and the New England Power Pool necessary for the delivery of firm power supply to Participants. In addition, a supplier of all-requirements retail electric power supply will be obligated to provide all services, directly or through contract, in order for the local distribution company to be able to bill customers; handle customer complaints and service calls; arrange all EDI and other functions and otherwise provide competitive supply to end-use customers.

A supplier of all-requirements retail electric power supply will have an obligation to serve all load for Participants that agree to purchase power pursuant to the executed MCESA. Many Participants have installed or will install renewable energy projects within their municipalities. Some of these renewable energy facilities are behind the

meter, i.e. energy consumption has been reduced, and some are virtual net metered pursuant to Massachusetts law (G.L. c. 164, §§138 – 140 and 220 C.M.R. §18.00), i.e. actual energy consumption has not been reduced. Bidders should carefully review usage information since usage can vary widely over time due to the installation of these renewable energy facilities. Electric account information for the Participants will be provided to bidders upon receipt of the signed Confidentiality Agreement (see Section 2.2).

3.2. Term Options

Delivery of all-requirements retail electric power must commence on the July 2019 meter read dates for each electric account. Bidders may propose contract terms of a minimum of one (1) year and a maximum of three (3) years.

3.3. Renewable Energy Support Options

Several Participants have expressed interest in purchasing an all-requirements power supply product that includes a greater percentage of renewable energy content. The Compact invites bidders to include in their proposal an option to support renewable energy above state-mandated Renewable Portfolio Standard (RPS) and Clean Energy Standard (CES) requirements through the procurement and retirement of additional MA Class 1 RECs. Bidders that choose to include this option in their proposal should provide a price per megawatt-hour of retail sales for each 1% of Participant load met with Class 1 RECs above the RPS & CES requirements (“Renewable Adder”). Bidders may propose different Renewable Adders for each year of the proposed contract term. However, the Renewable Adder offered in any one year may not vary during the year. The Renewable Adder will be considered an adder to the price(s) the bidder provides for the state-minimum renewable content all-requirements power supply product (“Base Price”) over each proposed term length. Bidders choosing to propose a renewable option may submit a Renewable Adder price for each proposed contract term length. By way of example only, if the Base Price is \$100/MWh for each year of a two-year term and the Renewable Adder price is \$1/MWh for each year, the price for a Participant that chooses to buy 5% more Class 1 RECs would be \$105/MWh in each year of the two-year term.

Please note that the inclusion and/or proposed pricing of a Renewable Adder will not be the primary basis for the selection of the winning proposal. Once the winning proposal is selected (see Section 7), each Participant will have the option to choose their own percentage of additional renewable content (if any) at the offered Renewable Adder price if the winning bidder has provided the option for additional renewable content. Participants that choose to purchase additional renewable content will be required to maintain the same additional percentage over the entire term of the contract. For the avoidance of doubt, note the inclusion of additional renewable energy content is at the discretion of Participants; some Participants may choose not to incorporate any additional renewable energy content.

4. Proposal Format

4.1. Qualifications

Proposals must include the following information:

- a. Contact(s). Name, business address, phone number, fax number, and e-mail address for the principal officer responsible for submission of the proposal and for the principal officer responsible for administration of the contract.
- b. Business Information. Legal trade name; date of incorporation or organization; state of incorporation or organization; list of officers and directors; list of affiliates, if any; a copy of previous two years of Annual Reports to Stockholders, or other audited annual report; copies of final year-end FERC Form 1 filings for 2016 and 2017, if applicable; current bond rating(s) by Moody's Investor Services, or other rating agencies, if applicable; latest audited financial statement(s) with confirmation of no material or adverse changes since the date of statement(s).
- c. Business Qualifications. Registration from the Massachusetts Department of Public Utilities as a competitive supplier in Massachusetts; New England Power Pool membership; certification of other regulatory approvals necessary to provide all-requirements retail electric power supply; Certificate of Good Standing from the Massachusetts Department of Revenue, or similar certification that all state taxes have been paid in state of incorporation or organization, if applicable; evidence of qualification to do business in Massachusetts, if applicable.
- d. Business Status. Statement as to whether business or affiliate has commenced, or been forced into, any insolvency proceeding within the last five (5) years; statement as to whether business or affiliate has been subject to any investigation by a state or federal agency within the last five (5) years; statements as to the number, if any, of consumer complaints filed with a state, federal, or local agency, against the business or affiliate within the last five (5) years.
- e. Credit Requirements. Evidence that bidder or its affiliate or parent if such entity is providing financial surety to the Participants under the CESA has a current, investment grade bond rating by Moody's Investor Services or other similar rating agencies.

4.2. Price Proposals

Bidders shall submit their price proposals by completing a Bid Form, which will be provided via e-mail to bidders upon receipt of a signed Confidentiality Agreement (see Section 2.3). Price proposals must be expressed in dollars per megawatt-hour of retail sales.

Bidders may submit price proposals for contract terms that range from a minimum of one (1) year to a maximum of three (3) years. Bidders may offer prices that differ in each year of the proposed contract term. However, the price offered in any one year may not vary

during the year. Bidders are invited to submit price proposals for one or more contract terms.

Bidders' price proposals must conform to the provisions of the MCESA, as supplied, or amended through contract negotiation. In order to submit a price proposal, Bidders must accept the Compact's language in Sections 2 (Accounts) and 3 (Material Deviation in Use) of Exhibit A to the MCESA. The Compact will not accept the bidder's contract as a complete substitution of its MCESA. As a general matter, bidders proposing prices with no or limited amendments to the form of MCESA will be preferred to prices conditioned upon more extensive amendments to the form of MCESA.

Prices quoted for any contract year of the MCESA term must be fixed for the duration of the contract year; seasonal, time-of-day, variable, or indexed pricing will not be permitted. All price proposals must include all costs related to supplying the required services, except as otherwise set forth herein. Since prices are fixed for the duration of the contract year, the Participants will not pay any separate or additional costs which are considered as pass-through for reliability or other costs associated with delivery of all-requirements retail electric power supply in the SEMA load zone, except as otherwise set forth herein. Price proposals for any contract year of the MCESA term will apply uniformly to all Participants, regardless of rate class.

The Compact and Participants will also pay no costs, fees or other expenses incurred by the bidder in preparing its response to this RFP. These costs, expenses or other amounts may not be included in a price proposal and may not be recouped under the MCESA.

Bidders should not place any additional written conditions on their price proposals beyond what is required on the forms provided. The Compact anticipates that the accepted bidder will enjoy participation by a substantial majority of the Participants, if not all. Price proposals will be considered binding on a bidder only if all Participants accept the proposal. If one or more Participants decline to accept a price proposal that the remaining Participants wish to accept, a bidder may, at its option, honor the proposal for the interested Participants.

4.3. Proposal Expiration

Price proposals will be deemed valid until 4:00 p.m. EST on Thursday, October 25, 2018. Bidders must indicate how long beyond the minimum period proposals will be held open at the price(s) offered. Given the time frame for evaluation, the Compact reserves the right to request that bidders re-price their proposals. At its sole discretion, the Compact may opt to negotiate with multiple bidders, as shall be considered in the best interest of the Participants.

Accompanying each proposal, each bidder must include a signed Binding Bid Agreement. The Binding Bid Agreement will be provided to bidders upon receipt of a signed Confidentiality Agreement (see Section 2.3). The signatory to the Binding Bid Agreement must certify that he/she has the authority to act on behalf of, and to bind the

bidder to perform the terms and conditions of the MCESA at the prices and for the load amounts specified in its proposal(s).

5. Supply Agreement

A Form of the MCESA, to be executed as a result of this RFP, will be provided via e-mail to bidders upon receipt of a **signed** Confidentiality Agreement (see Section 2.3). The MCESA contains the parties' rights and obligations for providing and receiving all-requirements retail electric power supply.

Proposed amendments to the MCESA are to be provided by bidders by close of business on Thursday, October 11, 2018. It is the Compact's intent to have a conference call with bidders proposing amendments to the MCESA before price proposals are submitted. Bidders should have their team/decision-makers available during this time frame. Bidders are strongly encouraged to propose only non-substantive changes to the MCESA.

6. RFP INFORMATION

The RFP will be posted to the Compact's website at www.capelightcompact.org/rfp/. The Compact will provide the following additional information to bidders that have submitted a signed Confidentiality Agreement (see Section 2.3):

1. Form of MCESA
2. Bid Form for All-Requirements Retail Electric Power Supply
3. Binding Bid Agreement
4. Authorization Form authorizing EVERSOURCE to release account usage data
5. Electric account numbers for all the Participants
6. Annual usage data for each Participant account
7. Estimated aggregate hourly load data for the Participants' accounts

The Compact makes no representations whatsoever as to the accuracy or completeness of the load data for the Participants' electric accounts which will be provided by EVERSOURCE. **Bidders are expressly cautioned that they must independently test and/or verify such data to the extent they believe appropriate.** The Compact assumes no duties or responsibilities to check, update or otherwise assess the data provided.

7. Evaluation of Proposals

The Compact may choose more than one proposal from responsive and responsible bidders for further consideration and evaluation. Proposals that are incomplete, not properly endorsed, or signed, or which are otherwise contrary to these instructions may

be rejected as non-responsive by the Compact. **Conditional proposals will not be accepted.**

The Compact will negotiate the form of amendments to the MCESA, if any, with each of the selected bidders. The Compact, in its sole discretion, will select the winning bid in consideration of the Base Price, the terms of the modified MCESA, if any, and other factors described in this RFP. The Compact may accept any portion of a bid, waive any irregularities and/or formalities, investigate the ability of the bidder to honor a bid, select a bidder who does not submit the lowest bid and accept any bid as shall be considered in the best interest of the Participants.

8. Notification of Award

Any contract resulting from this RFP shall be deemed as having been awarded when formal written notice of acceptance of the bidder's proposal has been duly served on the successful bidder.

9. Execution of the MCESA

All Participants that choose to accept a price bid will either be present on the bid due date to execute an MCESA or will execute a binding written agreement in advance of the bid due date authorizing the Compact to accept a bid and execute the MCESA on behalf of such Participant on the bid due date.

5. *Notes, Copies and Abstracts.* To the extent necessary to carry out the Purpose, the receiving party may make notes, copies or abstracts of the Confidential Information, provided that all such notes, copies and abstracts themselves are marked as confidential and provided that the receiving party maintains a written record of the distribution of all such copies and abstracts.

6. *Return of Confidential Information.* Within fourteen (14) days of receiving notice that it is not the winning bidder, the Company will return to the Compact all copies of Confidential Information, and will destroy all notes, copies, abstracts, documents, computer files and other media that contain Confidential Information, and will provide to the Compact a written certification of an officer of the receiving party that it has done so. If the Company is the winning bidder, within fourteen (14) days after the Company has ceased to provide services to the Compact, the Company will return to the Compact all copies of Confidential Information, and will destroy all notes, copies, abstracts, documents, computer files and other media that contain Confidential Information, and will provide to the Compact a written certification of an officer of the receiving party that it has done so. If requested in writing, the Compact will return any Confidential Information received from the Company upon expiration of the relevant document retention period under Massachusetts Law. Each party agrees that upon the return of the Confidential Information, it shall continue to be bound by the terms of this Agreement.

7. *Scope of Agreement.* This Agreement is binding upon the employees, officers, directors, agents, representatives, attorneys, contractors and consultants and affiliates of each party. The Company understands and agrees that certain Confidential Information disclosed by the Compact may be owned by the Participants and that the Compact is disclosing such information in its role as agent for the Participants. The Company understands and agrees that such information shall be entitled to be treated as Confidential Information under this Agreement.

8. *Consent of the Disclosing Party.* As to any instance under this Agreement whereby the non-disclosing party is required to obtain the consent of the disclosing party prior to taking certain actions, the disclosing party reserves the right to withhold consent for any reason.

9. *Term.* This Agreement shall become effective when executed by both parties and shall continue in effect until either: (i) in the event that the Company is the successful bidder, two (2) years after the Company has ceased to provide services to the Compact, or until sooner terminated by the written agreement of both parties hereto, or (ii) the event that the Company is not the successful bidder, two (2) years after termination of the solicitation process. The obligations of confidentiality contained herein shall survive and continue following the expiration or termination of this Agreement, unless otherwise agreed to in writing by both parties hereto.

10. *Required Disclosures.* Anything in this Agreement to the contrary notwithstanding, the non-disclosing party may disclose Confidential Information to the extent that it is required to do so by law, a court, or other governmental or regulatory authorities; provided, however, that the non-disclosing party shall give the disclosing party written notice of such a required disclosure prior to making such disclosure so that the disclosing party may seek a protective order or other relief with respect to such Confidential Information, and shall limit the disclosure to the minimum required to comply with the law, court order, or governmental or regulatory authority. Company acknowledges that the Compact and the Participants are subject to public records laws, including without limitation, G. L. c. 4, §7, cl. 26 and G. L. c. 66, §10.

11. *Representations and Warranties.*

(i) the Company shall use the Confidential Information only in connection with the Purpose;

(ii) this Agreement constitutes the legal, valid and binding obligation of the Company enforceable in accordance with its terms; and

(iii) the Company has taken all necessary action to authorize and approve the execution and delivery of this Agreement and the performance of the obligations hereunder.

The representations and warranties contained in this Agreement shall survive execution and delivery of this Agreement.

12. *Governing Law; Enforcement; Liquidated Damages for Certain Breaches.* The validity, construction and performance of this Agreement shall be governed by the laws of the Commonwealth of Massachusetts without regard to its choice of law rules. The parties agree that venue for judicial enforcement of this Agreement shall be Barnstable County Superior Court. The parties acknowledge and agree that the extent of damage to the disclosing party in the event of a breach by the non-disclosing party of any of the covenants contained in this Agreement will be difficult or impossible to ascertain and that there may be no adequate remedy at law available to the disclosing party. The parties therefore agree that, in the event of such breach, the disclosing party, in addition to receiving damages for breach, shall be entitled to enforce any and all of the covenants contained in this Agreement by injunctive or other equitable relief. In addition, in the event of disclosure of Confidential Load Data in violation of this Agreement, the Company shall pay the Compact fifty thousand dollars (\$50,000.00) as liquidated damages. The sum is agreed upon as liquidated damages and not as a penalty. The parties hereto have computed, estimated, and agreed upon the sum as an attempt to make a reasonable forecast of probable actual loss of the Compact's competitive advantage because of the difficulty of estimating with exactness the damages which will result.

13. *Notices.* Except for any notice required by law to be given in another manner, all notices, waivers, demands, or other communications required or permitted by this Agreement to be effective shall be in writing, properly addressed, and shall be given by: (i) personal delivery; (ii) established overnight commercial courier delivery service, with charges prepaid or duly charged by the sender; or (iii) registered or certified mail, return receipt requested, first class, postage prepaid and addressed as follows:
