

Energy Efficiency Case Study

Brought to you by Cape Light Compact

Hyannis Youth and Community Center

Location: Hyannis, MA

About the Business:

The Hyannis Youth & Community Center, located on Bassett Lane, offers numerous activities for the local community. The facility boasts two ice rinks, a gymnasium, meeting space, café, computer lab and much more. The facility is owned and operated by the Town of Barnstable and offers a plethora of sports programs and events to the region.

Project Highlights:

In 2019, Cape Light Compact (the Compact) partnered with the Hyannis Youth and Community Center to upgrade the lighting in the ice rinks. The Compact's vendor, RISE Engineering, oversaw the project which resulted in 1,046 lights being replaced with high efficiency LED bulbs and fixtures. The lights will not only provide the facility with energy savings for years to come but also provide better lighting for athletes and spectators alike. These upgrades build upon energy efficient upgrades made previously at the facility including vending miser upgrades in 2018.

Total Project Cost:

\$293,637

CLC Incentives:

\$293,637

kWh Savings:

37,446

About Mass Save:

Together, we make good happen for Massachusetts: Berkshire Gas, Cape Light Compact, Eversource, Liberty Utilities, National Grid and Unitil. As one, we form Mass Save®, with the common goal of helping residents and businesses across Massachusetts save money and energy, leading our state to a clean and energy efficient future.
